THE NEW LIQUID TECHNOLOGY

ATFTEC III SYNT   ATFTEC VI SYNT   ATFTEC MB   ATFTEC CVT   ATFTEC DSG/DCT

### ATFTEC - LUBRIFICANTI SINTETICI PER CAMBI AUTOMATICI

ATFTEC la nuova gamma di lubrificanti totalmente sintetici ad altissime prestazioni per cambi automatici, servosterzi e giunti idraulici.

- > Protezione contro corrosione;
- > Eccellenti proprietà lubrificanti, resistenza all'invecchiamento ed un'elevata capacità di assorbimento e aderenza;
- > Prevenzione di depositi;
- > Soddisfa i requisiti dei costruttori di veicoli.

Si consiglia l'utilizzo del prodotto in abbinamento alla sostituzione del filtro cambio.

### ATFTEC - SYNTHETIC LUBRICANTS FOR AUTOMATIC TRANSMISSIONS

ATFTEC the new range of fully synthetic ultra high performance lubricants for automatic transmissions, power steering and hydraulic couplings.

- > Corrosion protection;
- > Excellent lubricating properties, resistance to aging and a high absorption and adhesion capacity;
- > Deposit prevention;
- > Meets the requirements of vehicle manufacturers.

We recommend using the product in conjunction with replacing the transmission filter.

## ATKIT PROGRAM 2022

### KIT COMPLETI FILTRO CAMBIO + OLIO ATF

Il programma **ATKIT** raggruppa un totale di ben 16 codici kit e rappresenta la soluzione più semplice ed immediata per la manutenzione dei cambi automatici. Ogni **ATKIT** è composto dal filtro cambio specifico, equipaggiato con relativa guarnizione, viti di serraggio in acciaio ed eventuali boccole + l'olio ATF specifico, nel quantitativo necessario, tutto contenuto in un unico box.

The **ATKIT** program includes a total of 16 kit codes, it represents the simplest and most immediate solution for the maintenance of automatic transmissions. Each **ATKIT** consists of a specific gearbox filter, equipped with its gasket, steel clamping screws and any bushings + specific ATF oil, in the necessary quantity, all contained in a single box.

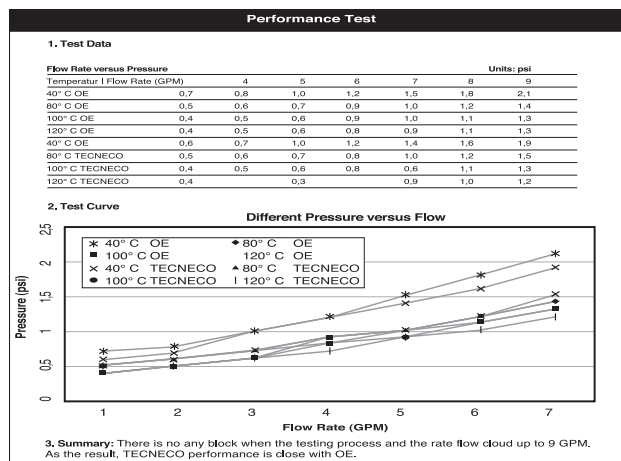

### FILTRI OLIO CAMBIO AUTOMATICO

I cambi automatici di ultima generazione hanno bisogno di una perfetta lubrificazione e quindi richiedono filtri specifici che impiegano media filtranti capaci di garantire una totale pulizia dell'olio, da qualsiasi particella inquinante, per lunghi periodi di utilizzo. I filtri olio per cambi automatici **TECNECO** garantiscono la pulizia e fluidità dell'olio, migliorano le performance, sono di qualità originale nel rispetto degli standard richiesti dalle case automobilistiche ed in conformità con la norma CE 461/2010.

### AUTOMATIC TRANSMISSION OIL FILTER

Modern automatic transmissions are dependent on perfect lubrication and therefore require filter media that reliably free the transmission oil of undesirable particles over long periods. **TECNECO** automatic transmission oil filters ensure cleanliness and fluidity of the oil, improve performance and are of original quality in compliance with the standards required by vehicle manufacturers and in accordance with the standard EC 461/2010.

**Filtration Media**

**Media filtrante ad alte prestazioni**  
Alta efficienza di filtrazione garantita da media filtranti in cellulosa naturale, tessuto non tessuto sintetico e fibre di vetro, per garantire sempre un elevato livello di purezza dell'olio in circolo.

**High performance filter media**  
High efficiency filter media, made from natural paper, nonwoven material and glass fibres, to ensure always an high level of oil purity.

Qualità certificata secondo norma ISO 9001:2015  
Quality system according to ISO 9001:2015
